

Case Study Abstract

South Carolina Gambling

Essentially a Tenth Amendment issue, South Carolina continues to question gambling in the eighth state. Gambling takes on various forms including high and low stakes casinos, charity bingo, lotteries, and in South Carolina, Catawba bingo and video poker. Many societal questions which arise with gambling, such as addiction, crime, poverty, exploitation and states rights, will be addressed. This presentation concludes with the many benefits of expanding the gaming industry in South Carolina.
