**Topic:**

## **From Columbine to Melrose Place: Sex, Drugs, and Violence in the Media**

**Speaker:**

**Dr. Victor Strasburger**

**Chief, Division of Adolescent Medicine Department of Pediatrics  
School of Medicine  
University of New Mexico**

Sex, drugs, violence, rock 'n' roll: today's children and teenagers are immersed in a culture that seems to celebrate things that are bad for them! Do the media cause problem behaviors among children and adolescents, or do the media simply reflect a society that has grown increasingly violent and sexualized? Using a variety of slides and video clips to illustrate his points, a national expert on media and children will discuss what we know about the media's impact on young people and what we can do about it.
